

# Our external accreditation & initiatives

## The Forest Stewardship Council

The Forest Stewardship Council [FSC] is an international, non-governmental organisation dedicated to promoting responsible management of the world's forests. It was founded in 1993 in response to public concern about deforestation and demand for a trustworthy wood-labelling scheme. FSC UK is a registered charity. It is supported by NGOs including WWF, Greenpeace and the Woodland Trust.

## ISO 14001

JC Atkinson has been accredited with the ISO 14001 standard, the internationally recognised mark for the environmental management of businesses. It prescribes controls for those activities that have an effect on the environment. These include the use of natural resources, handling and treatment of waste and energy consumption.

## Funeral Furnishing Manufacturers Association

FFMA trademark for the 'Coffin Certification Standard', where coffins and caskets are tested to ensure best standards and impartiality are applied. For details go to [www.ffma.co.uk](http://www.ffma.co.uk).

## Tree Tribute

When a coffin is sold with the Tree Tribute merit, [TT], a sapling tree will be planted to help restore, preserve and sustain wildlife.

## Fair Trade

Representatives from Traidcraft, the UK's largest Fair Trade organisation, have conducted a rigorous assessment of the business on location in Bangladesh, and are pleased to endorse all of the coffins and urns produced by Oasis as Fair Trade. Ongoing assessments will be made to ensure that these high standards are maintained. Locally, Oasis is an active member of the Fair Trade Forum in Bangladesh.

## Plastic Free

Where a coffin carries the 'Plastic Free' or the 'Plastic Free option available' symbol, the product is either entirely plastic free or comes with the option of being entirely plastic free. Another part of our increasing commitment to ensure our products exceed market expectations.

VENEERED COFFINS

See available sizes on Page 30

# Heartwood™ Veneered Coffin Range

Coffins manufactured using real wood. The wood veneer is laminated either onto chipboard or MDF. Machine cut and hand finished, represented in this catalogue are our more popular models. All are made by JC Atkinson with greater emphasis on quality. The veneer range is finished and polished by hand to an exact standard. For example the mitres and all pin or nail holes are filled and sanded. All coffins are sealed and re polished to your chosen colour and finish. The range of sizes available is also restricted (see size chart for details). All are FSC accredited and FFMA certified.

The moulds are made using solid or veneered wood. They do not match exactly, due to the nature of wood and the variation in species. The coffin base is made from chipboard, or in the case of a larger outsize coffin above 26 inches wide, the base is made from plywood. Made in a range of sizes, see page 28.

**Oak Veneer**  
Our Oak veneer is sourced from Forest Stewardship Council certified European forests. Certification guarantees the sources are from a sustainable well managed source.

**“Mahogany” Veneer**  
We use Sapele veneer, a type of tree which is part of the Mahogany family.

**Pippy Oak Veneer**  
This is a premium cut of Oak where many knots are concentrated, creating an interesting and wild grain structure.

**Golden Maple Veneer**  
Supplied from a proven source. Like the above, the clusters of knotty veneer are joined to make a more wild grain structure.

KISTER

The Diamant series is a collection of contemporary coffins and urns from the award-winning Scandinavian design studio, Jacob Jensen Design. A timeless and universal range developed with the Danish coffin manufacturer Tommerup Kister. The result: the perfect fusion of one hundred years of coffin manufacturing with fifty years of design tradition.

Made of Nordic birch, the Diamant series is an environmentally-friendly and sustainable alternative to hardwood. All coffins are upholstered in white, organic cotton with a unique butterfly and grass print, with matching quilt and pillow, inspired by Scandinavia's beautiful nature. # Floral Tributes

Floral tributes have a long association with funeral arrangements and as such it is not surprising that picture coffins which utilise flowers in their design have become a popular choice. These floral designs offer a softer, more colourful alternative to a traditional wood coffin and can hold special significance. Poppies are well known for their link to remembrance, while daffodils can signify re-birth and renewal. The example above incorporates a tartan draped over the coffin which alludes to a specific clan. This can be substituted for any other family tartan or fabric provided.

# Somewhere Special

Landscape views and vistas often conjure up very emotive feelings, which resonate with certain periods in peoples personal history. For this reason a landscape inspired picture coffin can conjure up memories of a loved one's past, perhaps displaying a place that held special meaning for them, or a location where they enjoyed spending time. Our team can recreate panoramas that wrap around the sides of the coffin from photographs supplied; or if it is a well known location, we can source the images on your behalf.

# Sporting Life

For many of us, sport can become a passionate corner-stone of our lives, manifesting itself in a life long dedication to a particular team. Many of the requests that utilise our personalised service reflect this passion, and sporting and team coffins remain some of our most popular designs. Through flags and motifs we can reference national teams, and in the event of wanting to include a specific club, our designers, wherever possible, can liaise to secure the permission to do so.

## Sport Nation

## Steeplechase

# Hobbies & Passions

As with sports, pastimes and leisure activities can become a defining aspect of peoples lives. Be it painting, fishing or gardening, we can create a picture coffin that utilises photographs supplied. If the deceased rode a particular motorbike, or sailed a particular vessel, we are happy to create a design that incorporates the right imagery for a truly personalised picture coffin.

## Locomotion

\*Personal details must be requested and are not part of the standard design.

## Sailing

## In the Garden

Our ashes caskets can match any coffin design.

# Words to Remember

Many of our customers like to include poetry, readings, song lyrics or their own writing on the coffin design, for a more sentimental and personal touch. They may represent a favourite piece of prose, express an emotion or sentiment that celebrates the life of your loved one. The text can be laid over or combined into any design and can give an additional level of meaning to your personalised picture coffin. We have illustrated a few popular choices on the following pages, but you can add anything you like to almost any image.

## The Caterpillar

“What the caterpillar calls  
the end of the world, the  
master calls a butterfly.”  
- Richard Bach

## Candle On Water

“For death is no more  
than a turning of us over  
from time to eternity.”  
- William Penn

## Flowers On Marble

“We cannot banish  
dangers, but we can  
banish fears. We must not  
demean life by standing in  
awe of death.”  
- David Sarnoff

# Animal Kingdom

Many of us are animal lovers and as such picture coffins featuring animals are amongst our most popular designs. They are perfect for someone who had a beloved pet, enjoyed spotting wildlife, or had an interest in exotic creatures. We offer designs featuring various types of household pets, wild animals and insects, but we are also happy to create a bespoke design depicting a personal pet using photographs provided.

Blooming -- tripping -- flowing  
Are ye then with God?”

## The Genus™

Pondering what to do for his final year project, an idea struck Sam Graham, then a 20 year-old student of Product Design.

'My grandfather died when I was a child and my mum and aunty decided to have a memorial tree planted in a London park. His cremated ashes fed the soil and gave life to something enduring. My mum didn't want me to go to his funeral for fear it would be too upsetting, so the tree became very significant for me.'

Years' later Sam's nan died and, again, the family chose to plant her ashes with a memorial tree. 'It was a beautiful setting', says Sam, 'and a special place to visit, but getting the family together and making the journey wasn't always easy and I felt I wanted more of a connection'. That's when Sam hit upon the simple but clever idea of replicating the tree in the park; instead the tree was at home and the tree was portable. The bonsai urn was born.

A small ring filled with some of the cremated ashes sits inside the soil of a bonsai tree inside a beautiful urn. Over time the ring biodegrades and the ashes feed the tree, once again creating new life from old.

# ToLad - Scattering of Ashes

After the cremation, what do families plan to do with their loved one's ashes? Scattering the ashes is an option, but how do they arrange it, and where do they do it? The TOLAD offers an answer to the first question. With the TOLAD (the Totem Of Life and Death), scattering ashes takes on a whole new significance.

## Diginfied farewell - one step at a time

The bereaved can plan their walk with the TOLAD at any time and place of their choosing. For instance, they could opt for a route that brings back memories of the deceased. A memorable route adds extra significance. The ToLad passes from person to person throughout the walk, giving everyone a chance to share stories, thoughts and memories with each step.

The top can be filled with ashes, which is then scattered gradually over the walk. A small amount of ashes is scattered with each press of the pole, each step of the way, making it lighter and easier for children to take part.

The TOLAD comes in three different subtle designs, each printed in high quality. The laminated finish ensures the walk can take place under any weather condition.

The place the bereaved go on their last walk should never be forgotten. That's why we offer the free TOLAD app for smartphones; an ideal way to track your route. The route is then stored online in a personal, private Remembrance Page that you can share with anyone you choose. The bereaved, even those who couldn't be present with the walk itself can visit the page to trace the route the family took and reminisce about their loved one.
